MongoDB | HTML 5 | CSS & TailwindCSS

Javascript | Flutter | Git | RPA (UIPATH)

Figma (UI/UX)

Education

B.E (Electrical and Electronics Engineering)

Paavai college of Engineering

06/2017 – 06/2020 | Namakkal

Projects

E-Commerce

- Led the development of a comprehensive e-commerce platform utilizing the MERN (MongoDB, Express.js, React.js, Node.js) stack.
- Designed and implemented RESTful APIs to facilitate seamless communication between the front-end and back-end systems.
- Integrated third-party APIs for payment processing, order fulfilment, and shipping logistics to enhance platform functionality.
- Implemented user authentication and authorization mechanisms, including JWT-based authentication, to ensure data security and privacy.
- Utilized MongoDB for efficient data storage, retrieval, and management, optimizing database queries for improved performance.

Declaration

I hereby declare that all information said above is true to the best of my knowledge and belief.
